

## **Chapter 1**

### **Introduction**

*Briefly describe the project background, purpose, and relevance.*

*Mention what problem it addresses and its domain (e.g., healthcare, education, IoT, etc.).*

*Map application domain to at least one SDG*

*Define the objectives, 2-3 only.*

**(Not More than 2 pages)**

**<< Margin:** Normal

**Paper Size :** A4

**Font:** Times New Roman

**Chapter Name:** 14 Bold

**Heading:** 12 Bold

**Other Text:** 12 Unbold

**Line Spacing:** 1.5 Justified

**Footer:** Page No. at right side from chapter 1

**Page Border:** only for cover page >>.....

....Applicable to all chapter

## Chapter 2

### System Study

*Describe the currently available system/process.*

*List its disadvantages or inefficiencies.*

*Explain your proposed solution, its advantages, and how it overcomes limitations*

*Define problem statement and project title.*

*List the key tasks, user intervention, and performance parameter such as- accuracy, speed, and data accessibility*

**. (Not More than 2 pages)**

## **Chapter 3**

### **System Requirement Specification (SRS)**

*List out the user specification Functional and Non-functional requirement.*

**(Not More than 2 pages)**

## **Chapter 4**

### **System Design**

*Selection of appropriate SDLC model and its justification*

~~System Study~~

4.1 Existing System

4.2 Limitation of existing system

4.3 Proposed System

4.4 Problem definition/ Title

*Each diagram should include a short description.*

**(Not More than 4 pages)**

## **Chapter 5**

### **System Implementation**

*List and describe each functional module of your system.*

*Describe the logic or algorithm used (if applicable).*

*Include screenshots of key code snippets (optional).*

**(Not More than 2 pages)**

## Chapter 6

### Testing and Deployment

*Include Manual Test Cases a table showing –*

| <i>Test<br/>Case ID</i> | <i>Test<br/>Condition</i> | <i>Data<br/>Input</i> | <i>User<br/>Action</i> | <i>Expected<br/>Output</i> | <i>Actual<br/>Output</i> | <i>Result(Pass/Fail)</i> |
|-------------------------|---------------------------|-----------------------|------------------------|----------------------------|--------------------------|--------------------------|
|-------------------------|---------------------------|-----------------------|------------------------|----------------------------|--------------------------|--------------------------|

*Output Screens: Add sample GUI / terminal outputs.*

**(Not More than 2 pages)**

## **Chapter 7**

### **Result and Discussion**

*Summarize what was achieved and mention how it can be extended in the future*  
*Summarize performance, usability, or any evaluation metrics if used.*

**(Not More than 1 page)**

## **Chapter 8**

### **References**

*List all references in proper format (books, research papers, websites).*

**(Not More than 1 page)**
